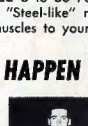
HERE'S LIVING PROOF!

ANDRE LEPINE

Gains 80 lbs.
OF
SOLID MUSCLE

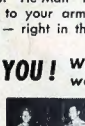
BEFORE

BEFORE mailing the coupon 100 pounds of skin and bones! What a rundown wreck! He had 10-inch pipe-stem arms — a flat 34 inch chest. Truly a pathetic case of weakness before he mailed me this coupon!



AFTER

AFTER Weider Training! What a Change! What a Build! 180 pounds — a mountain of mighty muscles, loaded with Herculean 17-inch arms, magnificent 48-inch chest and shoulders a yard wide! Another dream come true!



MY PUPILS WIN "MR UNIVERSE" TITLES

Jack Delinger and Ray Schaffer, both "Mr. America" and "Mr. Universe" winners. My pupils have also won "Mr. Europe", "World's Best Built" and "Strongest Man" titles

The world's best built men are your instructors! They show you the exercises that will build your arms, chest, shoulders and waist, twice as fast as you ever thought possible!

CLARENCE ROSS
"Mr. America"
Tells you how he built his muscles The Weider Way.

REG LEWIS
"Mr. Universe"
Tells you how he built his giant strength and power.

DOUG STROHL
"Mr. California"
Reveals to you how he gained 80 lbs. of he-man muscles.

LEO ROBERT
"World's Best Built Man"
Lets you into all the secret exercises of the champions.

JUST 15 MINUTES TO THAT RUGGED, DYNAMIC, HE-MAN BUILD YOU ALWAYS WANTED!

Give me 15 minutes right in the privacy of your own home and I will prove to you that in half the time and with twice the ease, in just a few minutes daily, I will, through my TRIPLE-PROGRESSION COURSE, slap inches of steel muscles to your pipe stem arms, pack your chest with power and size, give you life-guard shoulders, dynamic, speedy athletic legs — add jet-charged strength to every muscle in your body. I don't care if you're short or tall, skinny or fat, office-worker, laborer, school-boy, or businessman, I must make a new virile he-man out of you, and also help you build "inner strength" that will give you the virile look that women admire and men envy. What I did for Andre Lepine, Jack Delinger, Ray Schaffer and other "Mr America" winners — and thousands of weaklings — I can do for you! *Yes, I can turn you into a Real He-Man.*

THE $10,000 CHALLENGE
only Joe Weider dares to make!

I guarantee to show you how to add twice as much muscle — triple your power — gain more weight twice as fast through my system of training than you could through any other method, and in HALF THE TIME! I challenge any other physical instructor in the world who teaches through the mails, to accept my challenge!

JET PLANES AND ROCKETS HAD MADE TRAVEL A MATTER OF MINUTES WHERE IT HAD PREVIOUSLY BEEN HOURS...THE WORLD BECAME SMALLER AND SMALLER...SO MAN EXPANDED HIS PIONEERING INTO THE TREMENDOUS FIELD OF SPACE ...BUT EVEN HERE HE FOUND IT WAS...

A SMALL WORLD

BACK IN 1957, SPUTNICK KICKED OFF A CRASH PROGRAM IN EARTH'S ADVANCE INTO SPACE...

A MAN REACHED THE MOON IN 1962--RADIO SIGNALS CONTINUED FOR FOUR DAYS BEFORE HE APPARENTLY CEASED TO LIVE...

BY 1970, MAN TRAVELED TO THE MOON AND RETURNED TO EARTH--OTHER MEN EXPLORED SATURN AND JUPITER IN THE FOLLOWING DECADE...

IN THE LATTER DAYS OF THE TWENTIETH CENTURY, THE SPACEMAN LEARNED TO FACE NEW DANGERS...THE HORROR OF ABSOLUTE COLD...AND SEARING MOLTEN HEAT--AND HE FLED FOR HIS LIFE FROM UNNAMED HORRORS...AS COMMANDER GALT WAS NOW DOING!

OUT OF THIS WORLD

COMMANDER GALT WAS YOUNG IN YEARS--EIGHT OF THEM HAD BEEN SPENT IN SPACE--HE WAS HAGGARD, WEARY, AND BEGINNING TO FEEL FEAR/
RECON II CALLING PLANETARY COMMAND/ COME IN, PLEASE/
WHAT IS IT, COMMANDER? OUR ASTROMETERS INDICATE THAT YOU'VE LEFT YOUR OBJECTIVE/ STATE THE REASON, GALT/
THERE WAS LIFE ON M53, SIR/ WE HAD TO LEAVE OR BE DESTROYED/ MY CREW IS EXHAUSTED-- I NEED A RELIEF TOO/ NONE OF US CAN GO ON/
GALT, YOU ARE A WEAKLING/ I OPPOSED YOUR APPOINTMENT BUT THEY VOTED ME DOWN/
IF WE DO RELIEVE YOU AND YOUR MISFITS, YOU ALL WILL BE PLACED ABOARD AN OUTER GALAXY UNIT/ IN THE MEANTIME, RETURN TO M53, AND RESUME ACTIVITY/ THAT IS ALL/
THE MEN HAD HEARD-- THEY WAITED IN SILENCE, BEATEN, EXHAUSTED, MEN WITH ONE THOUGHT-- MUTINY/
YOU KNOW HOW WE FEEL, COMMANDER/ THE CHIEF HATES OUR PART OF EARTH/
BE STILL, MAN/
YOU KNOW HE WAS AN ENEMY IN THE LAST WAR ON EARTH/ YOU KNOW HE'S SENT MEN OF OUR NATION ON THE MOST HAZARDOUS MISSIONS TIME AFTER TIME/

OUT OF THIS WORLD

THERE ARE NO NATIONS ANY LONGER, DAVE/ WE ARE ALL MEN OF EARTH/
TELL THAT TO THE CHIEF, SIR/ HE STILL HATES OUR KIND/
I REFUSE TO TAKE AN ORDER FROM HIM, COMMANDER/

THE FLAME OF MUTINY SWEPT THE SPACE SHIP--MEN LEFT THEIR DUTIES TO PROTEST/ THE CRAFT, TRAVELING FASTER THAN LIGHT, STREAKED ON INTO UNEXPLORED GALAXIES/

COMMANDER GALT WAS NOT A WEAK MAN--IF HE HADN'T FELT THE WAY HIS MEN DID, HE WOULD'VE HANDLED THE MUTINY AT ONCE/

THEY'LL COME FOR US IF WE TAKE REFUGE ON A PLANET--OUR ONLY HOPE IS A PLANETOID/ AND I'VE GOT ONE ALREADY SELECTED/ IT'S A FRACTION THE SIZE OF EARTH WITH A SIMILAR ATMOSPHERE, CLIMATE, AND TEMPERATURE/

DROP 43298A

I have to tell somebody this story even though I can intelligently anticipate the various reactions. There will be those who with a bit of kindness in their hearts will remark, "Guess it is the result of overwork." And there will be those who will scornfully say, "What does he take us for? To believe that fool nonsense!"

All I can say is that it happened. We were working on Project Big-Up at the laboratory. That was the code name for the atomic microscope. We were getting to the point where we had licked the technical problems involved in doing away with the lens. The clue had been furnished by Professor John Maslow.

"We must translate vibrations into light patterns. That is the only path we can take in which we can enlarge without the use of lens."

I liked to do my work at night. Let me explain the situation to you. The laboratory was situated on a well-guarded stretch of land at the southern tip of the island. We scientists had a choice of living on the grounds or away. I decided to live at Crotan Falls. They had boating, swimming and fishing. I made a deal with Professor John Maslow.

"I like to be out during the sunny daytime. I'll work from midnight to seven. I will check the statistical formulas and also plan the necessary work for the second phase of the atomic microscope."

So that explains how I happened to be alone on that late Thursday just as I was on every other week day. I had a medicine dropper in my hand. I placed one drop on the slide and inserted the slide in the holder, and then I slipped. In order to catch myself I grabbed at the microscope holder and thus regained my balance. It isn't difficult to figure out that in so doing, I must have loosened some connection.

Then I threw on the power switch and watched the screen.

The entire room changed into something that reminded me of the colors of the rainbow. It seemed as though the drop of water was getting larger and larger, and that I was inside that drop of water. There was a mist all around me and I couldn't see very clearly. Finally a creature stood in front of me. I should say it was about three feet high. A very small, thin elongated bluish face was looking at me.

"How did you get into our world?" demanded the creature.

At this point I may be a bit foggy. I say that the creature spoke to me and I understood. It is also possible that not a word was uttered. Merely that thought processes went from one of us to the other like mental telepathy.

"Who are you?" I snapped back thus trying to evade the answer.

"Alitino Onadori, Supreme Master of This Universe."

"What Universe?" I continued.

"The one you just entered," continued the creature with some evident impatience. "Now what are you and how did you get here?"

"I am a human being. That I can definitely answer, but I'm not certain how I got here. I remember I put a drop of water on a slide. We are working on a microscope that will enlarge a drop of water to any size. Even as big as our own world."

"So you are a human being," sighed the Supreme Master of His Universe. "Just follow me and meet some of our ruling council. You better hold my hand. Everything is slightly damp and misty. In this Universe known as Drop 43298A."

So I followed Alitino Onadori. It was as though we were going from a cloud to a cloud.

And in-between there were small lakes. Finally we came to a group of other similar creatures.

"A human being for you," smiled my guide. "We knew that someday one of them would succeed in getting into our world. So the prediction of Semaj Leboma has come to be true. There were doubters who said it never would happen."

"But how do you know he is a human being?" demanded one of the creatures. "Why can't he be an inhabitant of another Drop Universe who had decided to pay us a visit?"

"Take a good look at him," insisted Alitino Onadori. "Notice his size and the color of his skin. He has blood through his veins. Not water like us. Furthermore you know the inevitable law concerning all inhabitants of any Drop Universe. When the drop breaks — that is the end of everything."

"Wait a minute," I half shouted. "Let me get this thing straight in my own mind. If everything dies when the drops breaks — then what happens to me? I happen to be in your Drop Universe."

"Guess the same applies to you," suggested another one of those creatures. "Though there is no way we can definitely be certain about that conclusion. You are in our Universe. Hence you should face all the dangers that we do."

"The sooner I get out of here the better," I replied. "I would like to go fishing tomorrow afternoon."

"What is fishing?" one of the creatures wanted to know.

I explained and they all listened very attentively. Then one of them spoke to me.

"We have a sport similar to yours. We fish but it is upside down. We try to catch a cloud. This will give us rain, and the more water we have in our Universe the more secure is the Drop. You can come with us."

"But I want to get back to my world," I insisted.

"Nobody invited you here," pointed out Alitino Onadori, "You came here by yourself. You are free to leave any time you so desire."

He stopped for a second and I imagined I thought I saw an ironic smile on his lips.

"Of course you are free to leave any time you so desire," he repeated. "You must have figured out some way to get here so you figure out a way to get out."

I looked at them and my face must have mirrored my thoughts, or maybe it was my thoughts they all were reading.

"So if you can't get out of this Universe, then remain here and make the best of it," suggested one of the creatures. "You ought to have a lot of ideas we can use. Take your time, for in this Universe time does not exist. We last as long as the Drop."

Well, what could I do? Make the best of a bad situation? What would happen in my world when they found me missing? The security guards would know I had never left the building. So there would be a search for me. One for a lot of people in years to come to try to figure out: How does a man vanish from a closely guarded building?

"Suppose we go fishing now for a cloud," suggested one of the creatures. "That will give our visitor something to do. Let him enjoy himself. We have a lot of work for him to do. One problem he can try to solve is how to make our Drop more secure."

They soon had poles that resembled our fishing poles. One was given to me. We walked a short distance. Then they started to cast all the way right up and overhead. I thought for a while that the clouds were enjoying this kind of a sport. Getting out of their way.

"You cast," suggested Alitino Onadori. "Get that cloud to the left."

One cast and it was perfect. I hooked the cloud and started to pull it down. Then the rain began. I thought I saw a hole where the cloud had been. I reached up and found I was floating right through it. Then things got misty. Next thing I knew I was right back in the laboratory. But no dream — because I was completely soaked!

All this happened two weeks ago. I haven't gone back to work. How can I? For there is but one thought in my mind: How to return to the Universe known as Drop 43298A. Maybe I could learn a lot from them. Maybe they could learn a lot from me. Yes, all this did happen even if you didn't believe it. Pardon me, there is the doorbell. Wonder who it can be?

And so I opened the door and faced Professor John Maslow.

"You didn't want visitors you told my secretary," he began as he entered the hall. "First we figured you were overworked and tired. Then when the atomic microscope refused to work, we figured you might have damaged it and was afraid of the consequences."

"I have written something you might want to read. It explains everything."

He glanced at the sheets of paper on my desk and took them in his hand but didn't read them.

"Your story of what happened, no doubt," he said. "We fixed the machine this morning, and you must have done something to a connection. Three of us found ourselves in some kind of a Drop World. Somebody by the name of Alitino Onadori is in the laboratory. Said we should get you. We have discovered something big. So you better come back with me. How will the world take all this? That's going to be your job."

— THE END —
